Biographies and company facts

Reviewed 1 November 2026. Editorial reference for IT Custom Solution LLC and its founder.

Short biography · 50 words

Olufela “Lu” Fagbure is Founder and Director of IT Custom Solution LLC, a multi-practice technology firm established in New York. His work connects technology consulting, implementation and IT operations with procurement and software development. He focuses on clear scope, accountable handoffs and practical technology delivery for government and commercial teams.

Extended biography · 100 words

Olufela “Lu” Fagbure is Founder and Director of IT Custom Solution LLC, a multi-practice technology firm established in 2021 and based in New York. His work spans bid pursuit and teaming, consulting and AI advisory, IT operations, and software development. ITC holds NYC MBE and NMSDC MBE certifications and maintains a SAM.gov registration; its SBA 8(a) application awaits a decision. The company’s documented hardware procurement engagements include Rensselaer County, New York, and City Utilities of Springfield, Missouri. Its software portfolio covers three fields: government contracting (Winrove), skills assessment and assessment-led recruiting (OpsTicket), and healthcare revenue-cycle management (ClaimKeel, now in development).

Source reconciliation: 1 November 2026. Current service and product wording reviewed; previously documented credential dates are unchanged. The certification announcement retains its dates and text.

Archived certification announcement

The following dated announcement is retained for reference. Use the current company facts above for reusable coverage.

IT Custom Solution LLC Receives National NMSDC MBE Certification

Originally published 8 July 2026. Company information reviewed 9 September 2026. The certification was issued 18 June 2026; the announcement date has not changed.

New York, NY. July 8, 2026. IT Custom Solution LLC announced its Minority Business Enterprise certification through the New York and New Jersey Minority Supplier Development Council, an NMSDC affiliate. Certificate NY100001102 was issued on June 18, 2026 and is valid through June 30, 2027.

“Certification is useful only when it connects to work a buyer can actually source,” said Olufela “Lu” Fagbure, Founder and Director of IT Custom Solution LLC. “For us, that means showing up with clear services, clean facts, and the discipline to say exactly where we can help.”

ITC’s practices span pursuit and teaming, consulting and AI advisory, technology services, and software development. As of the October product-portfolio update, its software portfolio brings distinct focus to three fields: Winrove for government contracting, OpsTicket for skills and assessment-led recruiting, and ClaimKeel for healthcare revenue-cycle management, in development.

NMSDC certification supports participation in supplier-diversity programs that recognize the credential. Each buyer determines its qualification, registration and sourcing requirements; certification does not guarantee a contract award.

About IT Custom Solution

IT Custom Solution LLC is a founder-owned technology firm established in 2021 and based in New York. Its work spans pursuit and teaming, consulting and AI advisory, technology services, and software products including Winrove and OpsTicket. ITC holds NYC MBE and NMSDC MBE certifications.
